18.	Temporary Tie Tags	52
19.	Pipe Identification (Tape in accordance BS 1710 & ISO 1472)	52-54
20.	Tapes	55
21.	Special Products	55

HOW TO ORDER

LALIZAS Code & Material

For ordering LALIZAS IMO signs use the 6 digit code showed underneath of each photo.

The first two digits of the 6 digit code refer to the type of material used for each sign, while the remaining 4 digits refer to the IMPA code corresponding to the specific sign.

For instance, IMO sign **814100**: **81** – refers to photoluminescent self adhesive vinyl, which is the material used for the specific sign & **4100** is the corresponding IMPA code.

LALIZAS uses 7 different materials to produce the IMO signs, which are clearly stated on the top of each page & are highlighted by different colours, so as to be even more clearly distinguished. For your convenience, the sign's code, underneath of each photo, is highlighted, according to the colour of the material used.

Material

LALIZAS Code

Material (**81** | **4100**) IMPA code

- 81** - Photoluminescent, self adhesive vinyl
- 82** - Photoluminescent, rigid PVC
- 83** - White, self adhesive vinyl
- 84** - White, rigid PVC
- 85** - White, self adhesive paper or laminated paper
- 86** - Transparent vinyl
- 88** - Coloured vinyl or coloured polyethylene

Signs Categories

Safety Signs

Photoluminescent

The safe way / Where to go in an emergency

Mandatory Signs

You must do / Carry out the action given by the sign

Fire Signs & Fire Control Symbols

Photoluminescent

Locates fire equipment or personnel

Warning Signs

Caution / Risk of danger / Hazard ahead

Prohibition Signs

You must not / Do not / Stop

Hazard Signs & Diamonds

Potential Hazard within a designated area

Photoluminescent Sign & Tape Material Specifications

Self-Adhesive Vinyl

Flexible laminated PVC composite material incorporating a photoluminescent layer thermally welded to a white reflective layer, backed with pre-applied adhesive.

Thickness: 0.6mm

Indoor durability: in excess of 5 years

Outdoor durability: good, but can be reduced in strong sunlight and humidity

Toxicity: non-toxic, non-radioactive and contains no phosphorous or lead

Chemical resistance: resistant to most common cleansing agents

Flammability: inherently fire retardant

Adhesive: cross-linked acrylic, pressure sensitive permanent adhesive with silicone release backing paper

Luminance performance: in excess of 46mcd/m² @ 10min & 4mcd/m² @ 60min., when tested in accordance with DIN 67510 part 1

Rigid PVC

Laminated PVC sheet incorporating a photoluminescent layer backed by a rigid white reflective substrate and protected by a tough, clear gloss PVC film. All laminations are thermally welded to form a cohesive sheet.

Thickness: 1.2mm

Indoor durability: in excess of 5 years

Outdoor durability: excellent, but can be reduced in strong sunlight

Toxicity: non-toxic, non-radioactive and contains no phosphorous or lead

Chemical resistance: resistant to most common cleansing agents

Flammability: inherently fire retardant

Luminance performance: in excess of 46mcd/m² @ 10min & 4mcd/m² @ 60 min., when tested in accordance with DIN 67510 part 1

Non-Photoluminescent Sign & Poster Material Specifications

Self-Adhesive Vinyl

Flexible gloss white vinyl material.

Weight: 110g/m²

Thickness: 80 micron

Dimensional stability: 0.5mm max to DIN30646

Outdoor durability: approximately 2 years

Chemical resistance: no effect from oils, greases, aliphatic solvents, heptane and kerosene

Flammability: self extinguishing

Adhesive: emulsion based, UV resistant, permanent adhesive with high initial tack and adhesion

Gloss: 60 units at 20o in accordance with BS EN ISO 2813:1994. The determination of specular gloss of non-metallic paint films at 20o, 60o & 85o.

Rigid PVC

Opaque rigid white gloss PVC material.

Thickness: 950 micron with UV stabilisation & impact resistance > 650kJ/m² to BS EN ISO 8256 Plastics - Determination of tensile-impact strength

Dimensional stability: 4% to DIN 53377 @ 140oC/10 min

Chemical resistance: no effect from oils, greases and most common solvents

Cold weather performance: -30oC tested to DIN 53372 Testing of plastic films - Determination of the thickness by mechanical feeling PVC films.

Flammability: Class C

PHOTOLUMINESCENT (PL) SYSTEM

LALIZAS technical team provides the entire LLL System. Study of Vessel's Plan, On board Inspection, On board Installation, Luminance Performance Measurement & Certification.

For the on board inspections we assign qualified technicians equipped with **Digital Photometer calibrated for testing LLL** system which must be compliant with **ISO 15370:2010, IMO A. 752(18) and DIN 67510 Part 1 resolutions.**

STUDY OF VESSEL'S PLAN

From the study of fire, safety and evacuation plan we provide you with the total meters of LLL your vessels need's, for every deck separately.

Positioning of the LLL system shall be arranged to enable persons to readily identify all escape routes and exits. To prevent escaping persons from having to cross LLL strips, lighting need not be installed along the door thresholds or across stairway landings. In way of local enlargements or recesses, the maximum interruption permitted in LLL systems shall not exceed 1 meter.

INSPECTION

Our Technicians inspect on board the condition of existing LLL systems. The LLL system shall be located either on the bulkhead within 300 mm of the deck, or on the deck within 150mm of the bulkhead.

The LLL shall be located on at least one side of the corridor, but in corridors more than 1 meters wide, LLL shall be located on both sides. Small individual recesses less than 2 meters long in the line of the corridor or with a combined total length less than 50% of the length of the corridor shall not be included when calculating the width of a corridor.

Height:
max 30cm

Inspection - LLL on board inspection

822391

INSTALLATION

LALIZAS Technical team can install the complete PL LLL Systems, according to ISO 15370:2010. The LLL system installation on decks, shall be arranged in such a way that the LLL strips do not constitute a danger for the free circulation of the people.

In all corridors the visual effect of the LLL system shall be continuous, except where interrupted by intersections with other corridors, cabin doors or local enlargements or recesses, to provide a visible delineation along the escape routes.

Door which form part of the escape route (e.g., doors in stairways, main vertical zone boundaries in corridors), or doors leading to open decks shall be marked by LLL in accordance with International Standard.

The system includes **aluminum profile** of 6cm height, **photo luminescent rigid pvc stripes** of 5,5cm height, **plastic end stops** and can be combined with the appropriate signage.

822398

Photoluminescent stripes PVC rigid, 5,5cmx100cm
822396

Suitable for: Super yachts, cruise, fpso, drilling platforms, etc

LUMINANCE PERFORMANCE & MEASUREMENT

Photo luminescent systems shall be tested, with a certificated calibrated photometer from our specialized technician, at the place of use in accordance with annex B of ISO 15370:2010 and the measurements shall be recorder in accordance with annex C of ISO 15370:2010.

LALIZAS LLL system shall provide a luminance of at least 22mcd/m^2 measured 10 min after the removal of all external illuminating sources and shall continue to provide luminance values greater than 3mcd/m^2 for 60 min.

CERTIFICATION

After the measurement completion Lalizas will provide you with the mandatory certificates of LLL systems.

The complete LLL systems should have their luminance tested at least once every five years. The measurement shall be repeated and recorded whenever the lighting system, wall, floor or ceiling decorations in the area are substantially changed in order to provide the vessel with a new Certification.

Retroreflective Tape ORALITE, SOLAS & USCG, 40m Roll

70180
5cm x 40 m

- High performance micro prismatic tape
- Permanently marked with ships wheel logo for immediate compliance identification
- Single layer construction for durability, abrasion resistance and flexibility
- No risk of water penetration
- Complies with SOLAS and the IMO LSA Code
- Tested in accordance with IMO Resolution A.658 (16) for Type I applications.
- Approved by the US Coast Guard and Bureau Veritas
- Vinyl construction designed for inflatable devices and use in harsh maritime environments
- Length 40 m, width=50mm

If you want to be a LALIZAS Franchise for IMO Signs & LLL
please contact us at signs@lalizas.com

LALIZAS B2B is an online platform (www.lalizasb2b.com) which exclusively addresses professional associates, providing them with useful information on both their needs as well as our products and services.

It has been specially designed in-house in order to facilitate in the best possible way the communication between us and our partners.

Through LALIZAS B2B platform, you are able to:

1. Place orders online

There are 3 ways to place an order:

- Quick Order, by directly typing the product codes you need
- Through .CSV file, by uploading a file with the item codes and quantities, if you wish to place a large order
- Regular Order, by browsing the categories and selecting the products you want

2. Have 24/7 real-time availability and prices for all our products

All information on prices and product availability are being updated every one hour. This ensures that you always have the most up-to-date information about our products.

3. Have access to all the documentation of your transactions

- Invoice
- Packing List
- Dispatch Document

After you have placed an order, all relevant documentation is posted on the B2B platform, so you can easily download it on your computer.

4. Keep track of your order

- Approved: your order is approved and transferred in SAP
- Picking: your order is in the picking process
- Backorder: these are all the product codes that are not available and are pending

The B2B platform is connected to the ERP system of LALIZAS, called SAP. This means that you can be informed immediately of the status of your order and the date of dispatch.

5. Be informed about the product availability dates

For products that are not available at the time you place an order and the products you have ordered and are pending, the B2B platform informs you about the date when the goods will be available.

6. Have immediate access to the statistical data of your account

You can be informed about:

- The balance of your account
- All your orders, grouped by item code or order

LALIZAS gives you the convenience of having total control of your orders in your own time, leading to increased operational efficiency due to accurate information provided.
