

ASTROS II RED

Parachute Rocket, SOLAS/MED/USCG

Code: 747871

- SOLAS/MED/USCG approved
- Covers carriage requirements for commercial vessels and recreational boats/crafts
- Easy and safe handling
- Ejects red flare on parachute at 300 m for distress signalling and enhanced visibility
- Bright red flame for at least 40 seconds at 30000 candela
- Compact design for easy stowage in liferafts
- Screw cup provides additional safety by preventing unintended use
- Exceptional performance even in harsh weather conditions

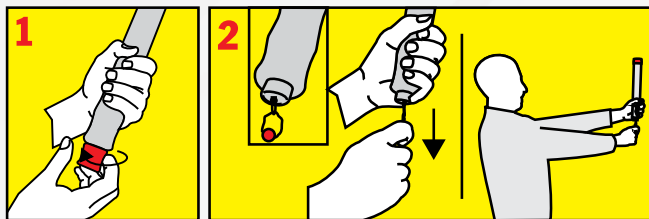

Made in Greece

APPLICATION

Emergency signal for position marking during rescue operations in day & night. SOLAS requires four pieces in lifeboats and liferafts, and twelve can be placed on vessel's bridge.

INSTRUCTIONS FOR USE

1. Hold the flare by the grip and unscrew the red cap.
2. Grab the rope with the red ball. Hold the parachute rocket firmly in a vertical position with the arrow pointing upwards. Keep it downwind and pull the cord with the ball to activate the parachute rocket.
